Description

The Hellenic Institute of Transport (HIT) is part of the Centre for Research and Technology Hellas (CERTH) which is a non-profit organization that directly reports to the General Secretariat for Research and Technology (GSRT), of the Greek Ministry of Culture, Education and Religious Affairs. HIT's main objective is the conduct and support of applied research activities in the field of transportation in Greece, more specifically on issues relating to the organization, operation, planning and development of infrastructure, the standardization, economic analysis, management, vehicle technology and the impact assessment of land, maritime, air, and multimodal transport services. HIT's services also include the provision of training and education activities in related fields, the dissemination of research activities and the Representation of Greece in Transport Research and other relevant scientific fora abroad.

Areas of Activities

ICT Technologies

1. Big data
2. Cloud computing & systems and e-Infrastructure
3. Internet of things
4. Social media
5. Other ICT technology

Applications

1. Automotive
2. Transport and Logistics
3. Education
4. Energy and Environment
5. Smart cities and Mobility

Offer & Request

Cooperation in Research Projects

Topics: Mobility, Logistics, Innovation, SMEs entrepreneurship.

Cooperation Offered

1. Technical co-operation
2. Other

Cooperation Requested

1. Technical co-operation
2. Other
