Description

Our company is a leading bike-sharing provider in EMEA region offering a wide range of bike sharing and bike parking schemes under the brand name “EasyBike” (<http://easybike.gr>). We also develop software applications for bike-sharing schemes and support the systems we sell. Our customers are cities, Municipalities, big organizations, and hotels which operate the systems we provide. After selling the systems, our involvement is mostly for the support and maintenance of the schemes.
